 600 MEGOHM VICMA (REGD.) CABLE

A quarter of a century's experience and development has amply proved that "TROPALITE" can confidently be recommended and specified for electrical installation work in hot climates.

This cable is not adversely affected when subjected to heat and cold alternately and it completely resists the effects of humidity and salt-laden atmosphere prevalent on the coasts of tropical countries.

"TROPALITE" cable is being successfully used in the Dominions, Crown Colonies and in India, and has given uniformly satisfactory results.
